from these in that more characteristics are de-
or smaller geopolitical units of analysis. Com-
veness and detail do, however, have their cost.
of fifty-one volumes, one for each of the States
District of Columbia, are required in order to
these data.

ssful completion of this project has required
tion between the AMA and the Bureau of
Manpower of the Department of Health, Educa-
nd Welfare (DHEW). The *AMA Physician*
ile is the data source and considerable resources
en utilized by the AMA in developing the com-
rograms and designing the volumes. Contract
232-78-0163 with the Health Resources Ad-
tion of DHEW has provided the financial sup-
ded to print and disseminate these volumes. In
to the bound volumes, print tapes of the infor-
contained in this report are available from the
of Health Manpower. Howard V. Stambler,
of the Division of Manpower Analysis of the
of Health Manpower is the Contract Project Of-
iews or conclusions contained in this study
not be interpreted as representing the official
or policy of the Department of Health, Educa-
d Welfare.

acteristics of Physicians was conceived by AMA-
partially in response to passage of the National
Planning and Resources Development Act of
L #93-641). With passage of this legislation it
apparent that planning and regulation were to
integral components of the health care system in
ed States.

istribution of physicians also has been the ob-
Federal legislative action for several decades.
965, four separate pieces of legislation each at-
g to effect a different distribution of health
ver resources have been enacted by the federal
nent. The most recent of these is the Health Pro-

The *Characteristics of Physicians* series is an
meet some of the data requirements inherent
market approaches to resource distribution an

distributions, determination of physician shorta
and planning to ensure that health care needs ar
quire detailed data on relevant characteristic
physician population. Data in the COP Series
available with the expressed hope that they
coupled with intelligent analysis and careful po
mulation.

Use of these data, however, will not be rest
policy makers. In addition, individual physici
utilize *Characteristics of Physicians* for making
and migration decisions, and medical societi
consult *Characteristics of Physicians* to asce
types of continuing medical education progra
to be of interest to a large proportion of phys
the region. Researchers in health care and in t
sciences have also repeatedly expressed a need
type of data provided. Therefore, *Characte*
Physicians is being widely distributed in an at
meet the repeatedly expressed needs of n
groups.

The efficacy of the market as an alloca
distributive mechanism for health care resour
is gaining supporters. It will be some time,
before the desired incentives can be reintrodu
the health care market. Until that time, th
CHSRD is attempting to ensure that all
relating to health personnel are based on the
available and, thus, introduce as few disto
possible.

of significant use to practitioners and re-
in the health care industry.

a presented here are for the physician popula-
icing in the United States. Detailed character-
presented for all physicians with known ad-
a geographic region who are professionally
addition, counts of physicians who are inac-
not classified are provided on each table.

ber 31, 1975 was selected as the point in time of
t for the following reasons;

#93-641 was signed in January, 1975, and it
s only during 1976 that significant activity was
dertaken in response to this legislation. Thus,
75 represents the last year in which the health
e system was not affected by this major piece
legislation and, therefore, is the most ap-
priate base year for future analyses of the im-
ct of this legislation.

cause this represents the first statistical series
its scope, an exceptional amount of time had
be expended in the conceptualization of the
ject, preparation of data set, and writing of
necessary computer programs. However,
ns are being developed for publication of
se volumes on a more regular and current
sis in the future.

troductory material which follows provides

ian Characteristics

stributions of physicians are described in this
n terms of a number of professional character-
vith some individual characteristics cross-
l with others. Key characteristics include
, major professional activity, age, sex, board
ion, Federal or Non-Federal employment, and
county of graduation. The thirty-six specialty
tions used in this publication are the same as
d in other AMA publications such as the *Physi-*
tribution and Medical Licensure in the U.S.,
d are presented in Table B. A physician's
classification is defined as that in which he/she
pending the largest number of practice hours.
er of county tables utilize the classification
f primary care/non-primary care specialists.
care physicians, for the purposes of these
re physicians whose specialty is general prac-
ily practice, internal medicine, pediatrics, and
s/gynecology. Another area of general interest
lty board certification. Certification indicates
physician has satisfactorily completed an ex-
n in an area of specialization and has taken all

of the specific training requirements for certifi
a specialty board.[2] The licensed physician i
practice any specialty regardless of whether t
cian is board certified or not. Tables in this pu
indicate board certification in some specialty
necessarily the specialty in which the phy
classified. However, over 90 percent of the p
reported as board certified are certified in the
in which he/she is classified.[3]

Physicians' professional activity by specialt
to assess the availability of patient care. Theref
fessional activity is reported by patient c
subgroups of patient care on the basis of "off

[2] "The boards are in no sense educational institutions, a
tificate of a board is not to be considered a degree. It doe
on any person legal qualifications, privileges, nor a licer
tice medicine or a specialty. The boards do not in any w
with or limit the professional activities of a licensed phy
do they desire to interfere in the regular or legitimate du
practitioner of medicine." Liaison Committee on Gradu
Education, *Directory of Accredited Residencies, 1977–78*
American Medical Association, 1978), p. 367.

5 to 75, and 75 and over; Federal employment as
as employment by the Veterans Administration,
Services, the U.S. Public Health Service, and
ederal Service.
medical education background of physicians is
ed in several forms. Physicians who graduated
nited States medical schools are categorized by
ool of graduation and the state in which they cur-
re practicing medicine. In addition, physicians
in a particular county group or county within a
e cross-categorized either as having graduated
medical school in the state, in a contiguous state,
other state, in Canada, or outside the United
nd Canada.

RELATIONSHIP TO OTHER ERICAN MEDICAL ASSOCIATION PUBLICATIONS AND TO THE COOPERATIVE LTH STATISTICS SYSTEM (CHSS)

ough previous AMA publications, *Physician ution and Medical Licensure in the U.S.,* and *l School Alumni,* have reported similar informa- *haracteristics of Physicians* provides more detail- rmation than previously available in published

ublication has two key features: greater detail of ans' characteristics and greater detail with to geographic units. More detail is provided for tributions, sex, and specialty board certifica- or states, county groups, individual counties, the health service areas. Thus, this publication s to meet a more extensive set of data needs not other AMA publication series.
ata collection effort to provide information to the data published in *Characteristics of Physi-* being undertaken by the Cooperative Health s System (CHSS). Although this system even- to collect data on a state-by-state basis for thir- alth related occupations, reports published as a f CHSS have not contained the level of detail

Because of the complexity and detail of t presented in these volumes, care must be exer their interpretation. A few explanatory wo necessary about the treatment of the p classifications used in these tabulations.

As mentioned previously, it was felt that data or sionally active physicians would be most us research and planning purposes. At the san however, it was felt that the total pool of p manpower should be represented in these volum dual purpose caused some problem in the desig tain tables because of the inactive and not class tivity categories. These two categories are inc the tabulations but are treated differently depe the type of cross-tabulation involved. Gene tables in which specialty is cross-tabulated wit professional activity, the inactive and not c physicians are included in the total value but distributed by specialty. Instead, these two va provided at the bottom of the specialty colum "Inactive," "Non-classified," and "A Unknown". To arrive at the total value, the and not classified values should be added to th the other major professional activity categori applies to Tables 1, 3, 6, 9, 16, and 19.

Address Unknown

Physicians with unknown addresses are inclu in Table 1 for informational purposes. Again, t is not distributed throughout the table but is inc the grand total. Physicians with unknown addr excluded from all other national tables; there grand total value on Table 1 exceeds the total Table 2 plus the total in Table [illegible] the total in Table 4.

Availablity of Data

This concludes the description of data cont the COP series. Every effort has been made to the most frequently requested information in a meaningful to most users. These data are al made available in the form of print tapes f Bureau of Health Manpower. In addition, plans underway to publish the COP series on a regul

[4] These observations are based on a comparison of the *H Annual* for Massachusetts and the *Characteristics of Massachusetts.*

ed as a record-keeping device for membership
ng purposes. Decisions were made on a day-to-
s without a unified approach and without
to what these decisions would mean in terms
ical methods and interpretation of the data.
earch activities within the Association became
histicated, the complexity of data requirements
. The *Masterfile* was, therefore, expanded and
to meet these requirements. Today, the *AMA*
Masterfile is the most comprehensive and
source of physician data in the United States.
es information on every physician in the coun-
bers and non-members of the Association, on
of American medical schools who are tem-
practicing overseas, and graduates of foreign
chools who are in the United States and meet
cation standards for primary recognition as
s. Thus, all physicians comprising the total
manpower pool are included on the *AMA*
Masterfile.[6]
is started on each individual upon entry into
chool or, in the case of foreign and Canadian
, upon entry into the U.S. As a physician's
nd career develops, additional information is
the file—e.g., internship and residency train-
sure board certification, professional affilia-
nd other characteristics. Although such
istics change over time, they are not subject to
change. These types of characteristics are in-
the "historical" portion of the *Masterfile.* In
there is the "current professional activities"
of each physician's record that identifies his
ddress, professional activity, specialties, and
ent status. By definition, this current portion
sterfile is subject to constant change and must
ed through intense monitoring techniques.
o 1966, physician classification by specialty,
and employment was made through the
tion of Professional Activities (CPA) system,
as based upon a "private practice/not in
ractice" concept. Data were collected under
m via a short postcard-type questionnaire en-

on draws heavily from: Goodman, L.J. *Physician Distri-
d Medical Licensure in the U.S., 1976.* Chicago: American
Association, 1977.

ssion of validation studies conducted on the *AMA Physi-
terfile,* see Goodman, L.J., and Eisenberg, B.S., "The
f Physician Data." *Public Data Use,* 5 (May 1977): pp.

queries relating to the number of patients
hours worked in each activity are made,
manpower cannot be properly allocated an
ferent activities.

This recommendation gained extensive consid
1966 when the then AMA Department o
Research, which has been replaced by the De
of Statistical Analysis and is now a part of
Center for Health Services Research and Deve
began its efforts to update, improve, and ex
AMA Physician Masterfile. In its evaluation o
base, it identified four major limitations in
classification system:

1. Existence of categories which were not
exclusive, resulting in confusion and du
between and within activity, specia
employer categories.
2. Lack of a criterion upon which to base
tion.
3. Lack of information on the most recent
each individual record.
4. Unavailability of information on respo
for the annual verification questionnair

These deficiencies were of sufficient concern t
major revisions in both the structure of the fi
data collection procedures. Therefore, a four-
ject (the Reclassification of Physicians Projec
itiated to redesign the classification syste
undertook the Reclassification Project in co
with the National Center for Health Statisti
United States Public Health Service, the B
Demographic Surveys of the U.S. Bureau of th
and knowledgeable researchers in academia.

The first step in reclassification was the res
of the format of the 1966 edition of the *Distri
Physicians, Hospitals, and Hospital Beds,* a p
of the AMA Center for Health Services Res
Development. Through a series of computer
the old *Masterfile* category "private prac
private practice" was converted to the more
"patient care/other professional activity."
1966 format changes constituted a step in
direction, an important deficiency in the publ
file of the physician population remained: data
being collected under the old classification n
became obvious that the data collection proce
to be revised to correlate with the new cla

AMERICAN MEDICAL ASSOCIATION
535 N. Dearborn Street
Chicago, Illinois 60610

Dear Doctor:

Please complete this questionnaire as soon as possible so that your official record is up-to-date with correct and current information for printing of the *1973 AMA DIRECTORY*. Data obtained from this questionnaire will be aggregated and used to describe the distribution of physicians and to analyze health manpower. However, *NO information from your record will be released* to any organization for the purpose of developing independent physician data files.

Thank you.

Instructions

1. Please answer every question on the basis of your *current* activities.
2. ***Indicate any changes.*** Information which you provided previously has been printed in this form. Please *complete* unanswered sections and make *discrete changes* where applicable.
3. Upon completion, return the questionnaire at your *earliest possible convenience*, using the preaddressed envelope.

Contents

The questionnaire is divided into four sections:

I. *Professional Activities*—the types of activities in which each physician spends the most time during an *average week*.

II. *Specialization*—the time physicians spend in their major fields of specialization.

III. *Present Employment Status*—the number of hours *per average week* spent under various practice arrangements, by type of practice organization or employer.

IV. *Address and General Information*

services by such physicians as pathologists and radiologists.

Exclude time spent in training, teaching, or research. Include travel time and time spent on record keeping and other office work connected with your patients. . . . . . HRS. 4

3. How many hours per week do you spend on ADMINISTRATIVE ACTIVITIES, AS A SALARIED STAFF MEMBER OR EXECUTIVE OF AN ORGANIZATION?

Exclude time spent on record keeping and office work connected with management of your own practice. Include activities connected with the administration or staff committees of a hospital or other health facility or agency, clinic or group, or any other organization by which you may be salaried as an executive or staff member. . . . . . HRS. 5

4. How many hours per week do you spend on MEDICAL TEACHING?

Include hours spent in teaching as well as in preparation for subjects taught in medical schools, nursing schools, other hospital schools, hospitals, colleges, universities, or any other educational institutions. . . . . . HRS. 6

a. OF THESE HOURS how many do you spend on direct care of patients?

Exclude time devoted to patient care by house staff under your supervision. . . . . . HRS. 7

In view of possible overlap of hours spent in teaching and research, please do not double-count such hours, but report them instead in the most applicable category.

5. How many hours per week do you spend on MEDICAL RESEARCH?

All phases of investigating medical problems regardless of source of funds for such research. HRS. 8

a. OF THESE HOURS how many do you spend on direct care of patients?

Exclude time devoted to patient care by house staff under your supervision. . . . . . HRS. 9

6. How many hours per week do you spend on any OTHER medical activities *(not listed above)* INVOLVING DIRECT CARE of patients? . . . . . HRS. 10

7. How many hours per week do you spend on any OTHER medical activities *(not listed above)* NOT INVOLVING direct care of patients? . . . . . HRS. 11

8. About how many hours per week do you spend in ALL PROFESSIONAL ACTIVITIES? Total of questions 1 through 7 (exclude 4a and 5a) . . . . . HRS. 12

If you indicated "zero" on question 8, or if *none* of the above categories apply to you, please answer question 9.

9. Are you:

1 ☐ RETIRED 2 ☐ SEMI-RETIRED

3 ☐ PERMANENTLY DISABLED

4 ☐ TEMPORARILY not in practice

5 ☐ Not active for other reasons *(please describe)*_____

_____

Total of Section I, equivalent to total o Section II, and tota Section III, respect

Please *cross out* any prior information which is *not* applicable.

Third

III. PRESENT EMPLOYMENT STATUS

Please indicate the current *number of hours spent per week* for the following types of employers. (Note: employer should **NOT** be confused with the physical location of where your hours are spent.) Please answer EVERY question 1-10. If you do *not* spend any hours for any one of the following employers, so indicate by entering zero (0) hours.

	HOURS PER WEEK	
	Prior Census	Changes If Any
1. Self: "solo" practice	HRS.	1 HRS.
2. Self: partnership practice	HRS.	2 HRS.
3. Arrangement with other physician(s): non-group	HRS.	3 HRS.
4. Group practice	HRS.	4 HRS.
5. MEDICAL SCHOOL (or parent university)	HRS.	5 HRS.
6. NON-GOVERNMENTAL hospital	HRS.	6 HRS.
7. City or county government — a. HOSPITAL	HRS.	7 HRS.
b. OTHER than hospital	HRS.	8 HRS.
8. State government — a. HOSPITAL	HRS.	9 HRS.
b. OTHER than hospital	HRS.	10 HRS.
9. U.S. government — a. HOSPITAL	HRS.	11 HRS.
b. OTHER than hospital	HRS.	12 HRS.

Indicate Federal Agency:

1 ☐ Army
2 ☐ Navy
3 ☐ Air Force
4 ☐ Public Health Service (C.C. & C.S.)
5 ☐ Veterans' Administration
6 ☐ Other _____ (SPECIFY)

13

10. OTHER ORGANIZATION—Not listed above

(all types of insurance carriers, pharmaceutical companies, corporations, voluntary organizations, medical societies, associations, grants, foreign countries, etc.) . . . . . HRS. 14 HRS.

If the address printed at right is NOT correct, please make appropriate changes in space provided.

PDR	Radiology, Pediatric
TR	Radiology, Therapeutic
RHU	Rheumatology
RHI	Rhinology
ABS	Surgery, Abdominal
CDS	Surgery, Cardiovascular
CRS	Surgery, Colon and Rectal
GS	Surgery, General
HS	Surgery, Hand
HNS	Surgery, Head and Neck
NS	Surgery, Neurological
ORS	Surgery, Orthopedic
PDS	Surgery, Pediatric
PS	Surgery, Plastic
TS	Surgery, Thoracic
TRS	Surgery, Traumatic
U	Surgery, Urological

In addition to the above specialties the following designations are also used

OS	Other, i.e., physician designated a specialty other than those appearing above.
US	Unspecified, i.e., physician did not specify a specialty.
